

GIRAFFE PROFILE

Rae

Scientific Name: Giraffa camelopardalis reticulata

Common Name: Reticulated giraffe

Sex: Female

Birthdate: April 26, 2017

Parents: Dam - Msitu
Sire - Khalid

Birthplace: Cheyenne Mountain Zoo

Weight: 760 pounds (2018)

Identification and Characteristics:

- Rae is currently our smallest giraffe and she's still growing! She has a birthmark (dark spot within a spot) on her right side of her neck (image 1). She also has what looks like an asterisk pattern on her neck, which none of the other giraffe have (image 2).
- Rae is rather independent. She likes to stand by herself and play with enrichment alone, but then likes to reunite with mom Msitu toward the end of the day.

Known Behaviors:

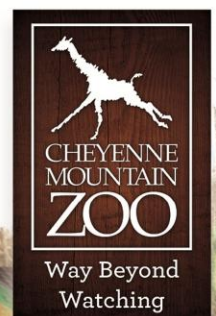

- Target, back up, right and left foot, X-rays, scale, injection.

Rewards:

- Rae really likes crackers!

Reproductive History:

- Rae has had no calves.
