

Make a Difference for Wild Orangutans!

Across

4. Orangutans live in this type of forest habitat.
5. This stands for Roundtable on Sustainable Palm Oil. You can help by encouraging companies to join this!
6. These pachyderms are also affected by conversion of critical rainforest habitat into palm oil plantations (they have trunks).
7. Proboscis monkeys live in the rainforests of Borneo. Adult males have a gigantic _____ on their faces.
8. This means removal of the forest, also the loss of orangutan habitat.
12. You can help preserve rainforests by asking for paper products that are certified by _____, or Forest Stewardship Council.
13. Orangutans are NOT monkeys, they are Great _____.

Down

1. Island in Indonesia where orangutans, rhinos, AND tigers live.
2. Critically Endangered = Status of Sumatran, Bornean, and Tapanuli _____.
3. Island where 'Orangutan Island' was filmed.
5. Fewer than 300 of these horned animals are left on the island of Sumatra.
9. Orangutans are frugivores, so their favorite food is _____ which they find high in trees.
10. You can help save trees by doing this with paper and cardboard (don't throw it in the trash).
11. Orangutans are arboreal, which means that they live in _____.
14. _____ Oil - High demand has lead to NON-sustainable production of this oil, which harms the rainforest.
